# MAINTAINING BLACKS AND COLORS WITH SMOOTH STEADY HALATION AT ALL STRENGTH

| Description | |
|---|---|
| Diffusion filter, reduce blemishes and winkles. Pleasant softening of bright highlights helps control exposure. Combination of HD Classic Soft® and Black Frost® 1/8 filter. Providing a constant smooth transition in the highlights, even at higher diffusion strength. Smoothen the harsh edges of high-resolution pictures as 4k or 8k. | |
| **Key Feature** | |
| • Soften skin by removing unsightly blemishes & wrinkles.<br>• Creates a filmic look by adding a substile glow to highlights.<br>• Maintain rich blacks and colors.<br>• Smoothen digital look of high- resolution shots. | |
| **USP** | |
| Constant smooth halation in the highlights at all diffusion strength. | |
| **Application** | |
| Softens the details and create a subtle glow to highlights. Ideal to reduce the digital look of 4k or 8k cameras. Provides a pleasant look of an airbrushed texture while remaining rich blacks and colors. | |
