Specifications subject to change without notice.

With the **System 700-A7II** Chrosziel provides the perfect combination of **protection**, **easy handling** and **versatile application** for the Sony A7II series cameras. It includes a Cage with a top handle and a Light Weight Support (LWS) with  $\varnothing$  15mm rods.

## The perfect combination - System 700-A7II:

## Additional accessories for System 700-A7II:

## Features System 700-A7II:

### Protection

- Cage protects the camera from damage
- Secure grip while shooting
- Solid and durable

### Easy handling

- Cage easily separates from LWS
- Open grip allows unobstructed operation of the camera's control buttons
- Easy access to memory cards and battery
- Top handle easily detaches (e.g. for transportation)
- Low weight

### Versatile application

- The complete System as well as the Cage individually mount on various tripod heads (e.g. Sachtler Ace, Manfrotto 501, 701)
- Two Ø 15mm rods, length 205mm, slide through along the baseplate
- Several 3/8" and 1/4" threads for various accessories
- Integrated cold shoe
- Ideal for handheld use as well as for heavier setups (e.g. with MatteBox or Follow Focus)
