

**New and
steadier**

Easyrig® 3 Pat. **Cinema**

Easyrig 3 Cinema is specially designed for heavy film cameras

Easyrig 3 Cinema has improved steadiness because of the new integrated hip and back support

Easyrig 3 Cinema comes in one size that fits "all" bodies thanks to the new flexible belt system

Made for Professionals by a Professional

**New and
steadier**

EASYRIG[®] 3 Pat. Cinema

The **EASYRIG 3 Cinema** portable camera support is ergonomically designed and reduces the static load on the neck and shoulder muscles, and transfers it down to the hips, the part of the body best designed to deal with it.

The **EASYRIG 3 Cinema** gives you the speed and mobility of a hand-held camera, while still achieving steady shots. It allows you the freedom of shooting from various positions; the shoulder, the hip or even at knee level. The powerful suspension line will easily accept cameras up to 25 kg.

The **EASYRIG 3 Cinema** is ideal for movies, commercials and many other hand-held situations where stability is crucial and the freedom to move is essential.

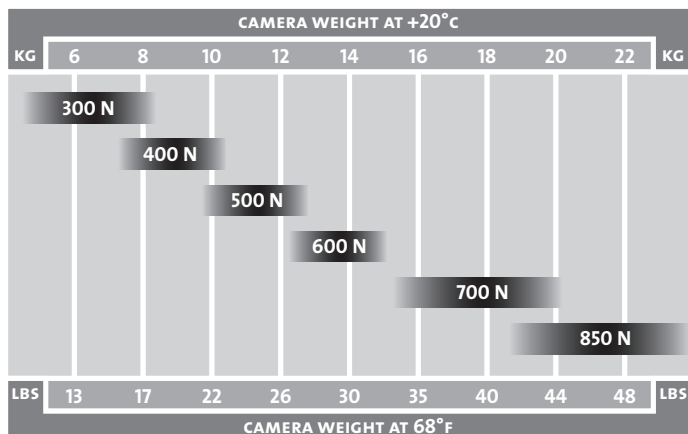

The **EASYRIG 3 Cinema** can be used with both film and video cameras.

A basic Easyrig system includes:

- Support arm (ordered by camera weight)
- Lockable camera hook
- Hip and back support
- Transport bag
